Hello Craig,

I see that you have applied for membership in PASG. Before we can proceed with your application, we need some additional information from you. Please prepare a brief statement in which you address ...

>> How will you support the goals of PASG, as expressed on our website, www.pasg.info?

>> Over the years, you have posted on your website, Facebook page, and perhaps other platforms extremely negative and rude statements regarding PASG members (including Linda Gottlieb, Demosthenes Lorandos, and me). Do you agree to remove those offensive statements from the internet, as well as others that might be identified?

>> Will you apologize for the offensive statements you have made about PASG members on various internet sites?

I will copy the PASG Board of Directors, since they may have additional questions for you to address.

Bill

William Bernet, M.D.
